

# CADET

**KENTUCKY  
BLUEGRASS**

**CADET**  
KENTUCKY BLUEGRASS

- DARK COLOR
- VERY GOOD DISEASE RESISTANCE
- AGGRESSIVE
- MEDIUM TEXTURE
- COMPATIBLE IN MIXTURES AND BLENDS

**VALUE ORIENTED PERFORMANCE**

Cadet was discovered as a natural aberrant plant in a F2 cycle of Wildwood (compact type) kentucky bluegrass.

Cadet exhibits a very dark green color, excellent vigor, and quickly establishes an attractive turf of moderate density. Cadet grows in most soils and does not require a high level of maintenance and fertility to attain its performance.

As a result, Cadet makes an ideal component of blends with other bluegrasses, and in mixtures with other cool season grasses like perennial ryegrass and tall fescue.

**TURF QUALITY RATING**

Blackstone	5.47
Moonlight	5.38
<b>Cadet</b>	<b>5.13</b>
Blue Ridge	5.0
Boutique	4.98

Private sod farm trial, VA, 2004 data. Selected varieties.
