

BLACK PEARL
PERENNIAL RYEGRASS

A PERENNIAL RYEGRASS TREASURE

- VERY DARK GREEN
- EXCELLENT TURF QUALITY
- FAST ESTABLISHMENT
- GOOD SEEDLING VIGOR
- BRED FOR EASY TRANSITION

Black Pearl is a great choice for all your perennial ryegrass needs. **Black Pearl** is selected from improved genetics, providing a better breeding platform than most other varieties. **Black Pearl** is a very dark green variety, ranking in the top 3 entries of the recent NC State overseeding trial. In addition, **Black Pearl** scored in the top group for turf quality, having fine blades and excellent density. **Black Pearl** also establishes well, exhibiting good seedling vigor and providing green cover quickly.

TURFGRASS COLOR

Black Pearl is very dark green, ranking 3rd for overall genetic color in the recent NC State trial.

2016/2017 NC State Winter Overseeding Trials on Athletic Fields/Fairway Height Bermudagrass

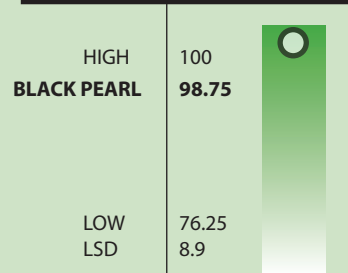

TURFGRASS QUALITY

Black Pearl has excellent turf quality thanks to its fine leaf texture and high density.

2016/2017 NC State Winter Overseeding Trials on Athletic Fields/Fairway Height Bermudagrass

% TURFGRASS COVER

Black Pearl provides excellent overall cover withstanding the rigors of use and climatic pressures.

AREAS OF USE

- LANDSCAPED AREAS
- SPORTS TURF
- FAIRWAYS
- WARM-SEASON OVERSEEDING
- RESIDENTIAL LAWNS

SEEDING AND OVERSEEDING Black Pearl readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs. per 1000 sq. ft. Periodic reseeding at 3-5 lbs. per 1000 sq. ft. maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs. per 1000 sq. ft. is suggested for golf course greens. And 7-10 lbs. per 1000 sq. ft. (300-450 lbs. per acre) for tees, fairways and roughs.

MAINTENANCE Black Pearl will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of 1/2" and above. Black Pearl can be maintained at fairway cutting heights when appropriate management practices are observed.
