

STEALTH
TALL FESCUE

STRIKE QUICKLY WITH STEALTH TALL FESCUE

- HIGH NORTHEAST NTEP SCORES
- LOW-MOW ABILITY
- STRONG YEAR-ROUND COVER RATINGS
- RAPID ESTABLISHMENT

Stealth (PPG-TF 238) is the newest addition to the family line in the MVS Tall Fescue program! It's parents were selected for quick, aggressive establishment, recovery from summer heat and disease, and the ability to be low-mowed. **Stealth** has fine texture and scored high in the NTEP for turf quality in the Northeast and Transition climates. Sneak past the competition with **Stealth** Tall fescue!

AREAS OF USE

- PROFESSIONAL LAWN AND LANDSCAPE
- HOME LAWNS
- MUNICIPAL USE
- SPORTS FIELDS

TURF QUALITY - TRANSITION

Stealth exhibits excellent turf quality, even in the harsh summer conditions of the transition region.

2020 NTEP Mean Turfgrass Quality Rating - Northeast Region

TURF QUALITY - LPI-1

Stealth scored very high in mean turf quality for the LPI - Group 1 NTEP trial.

2020 NTEP Mean Turfgrass Quality Rating - (LPI) Group 1

SEEDING AND OVERSEEDING Tall fescue prefers warmer soil for germination, typically 55°F to 58°F. In the Transition zone this means early spring and early fall. Further north, late spring and late summer is preferred. Stealth should be sown at a rate of 6 to 9 lbs per 1000 sq ft (275 to 400 lbs per acre), lightly covered with soil, and kept moist until after the first cutting. Maximum density is achieved by planting with a slicer/seeder or following aeration, and with the application of a starter fertilizer. First mowing's are generally within three weeks, or when plants first reach 3 inches in height. Overseed existing tall fescue at a rate of 225 to 300 lbs per acre.

MAINTENANCE Stealth's natural dark color, density, and pest resistance minimize the need for extensive maintenance. Generally 2 to 3 pounds of nitrogen as part of a balanced fertilizer applied annually is all that's required. Cutting heights should range between 2 to 3 inches. Under controlled conditions heights down to 1 inch can be satisfactorily maintained.
