

# SLIDER SG

## PERENNIAL RYEGRASS

Slider SG Perennial Ryegrass is a premium turfgrass variety from the latest generation of elite genetics, delivering exceptional performance and appearance. In the NTEP trials, it ranked among the top performers, especially in the Midwest for overall turf quality. With a fine leaf texture and rich green color, it forms a dense, uniform, and visually appealing surface. Notably, Slider SG offers early spring green-up (as reflected in its "SG" name), giving turf managers and homeowners a fast start to the growing season. It's ideally suited for high-performance environments such as sports fields, golf fairways and tees, residential lawns, and municipal landscapes—combining top-tier quality, early vigor, and refined aesthetics.

### IMPRESSIVE SPRING GREENUP

### EXCELLENT TURF QUALITY

### IMPROVED DISEASE RESISTANCE

### FINE LEAF TEXTURE

#### AREAS OF USE

- Professional Sports Turf
- Tees & Fairways
- Sod Production
- Residential Lawns
- Warm-Season Overseeding

#### SEEDING

Slider SG readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs/1,000 sq ft. Periodic reseeding at 3-5 lbs/1,000 sq ft maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs/1,000 sq ft is suggested for golf course greens. And 7-10 lbs/1,000 sq ft (300-450 lbs/acre) for tees, fairways and roughs.
